

I AM A GRAVE ROBBER AND I SELL THE DEAD

MR MELES WAS ALLEGED TO HAVE SAID TO BEN (ETHIOPIAFIRST.COM): I AM A SAD PATHOLOGICAL AND HABITUAL LIAR, TRIBAL GRAVE-DIGGER, A VERY SHAMELESS ROBBER, AN ADULT AND ALSO CHILD KILLER AND I SELL ALL GOLD-MINES, LANDS AND THE DEAD TO ALL BUYERS IN ASIA, MIDDLE EAST AND THE WEST, WHILE THEY ALL NEEDED MORE FOOD & ESPECIALLY HUMAN BODY PARTS IN THEIR HOSPITALS

TPLF is the True Home of Prime Evil... T-Traitors P-Psychopaths L-Liars F-Fascists = Evil

By: Dr G Bekele - 3 December 2009

Meles Zenawi is cruel, immoral and insane who also is an evil trapped in a man's body. But when Meles was born in 1991, there was a great joy in the western world especially in Britain, the United States and the Middle East because they knew he would be a good con-merchant and a traitor to do business with, and to help them slaughter Ethiopians and destroy Ethiopia. No wonder too, that those countries kept too silent for 19 years while showering him with undeserved praises, financial and military equipment assistances. Therefore, if I call this little sob pure evil, I am not at all doing him injustice. Yes, Meles Zenawi really is an evil, in a hole of his-own TPLF construction. He dug himself a bigger hole by desecrating our flag, belittling our unparalleled history, stealing the election and moreover too, taking over-large risks to favor Eritrea and in the process destroy Ethiopia for the past 19 years to name few.

Ethiopia is a nation held at gunpoint by evil forces as I repeatedly said in my previous articles but still dying to live under all difficult circumstances. Therefore, I say to my fellow Ethiopians and friends of Ethiopia, welcome to this awesome website for the definition of the gravediggers and dead body merchants of Ethiopia. The late Samuel Butler once said, "Evil is like water, it abounds, is cheap, soon fouls, but runs itself clear of taint". So, what is the general definition of evil then? Whoever leases and sells own fertile lands to total strangers while its people are starving to death is evil. Those greedy, reckless, merciless, ruthless brainless thugs who desecrated an Ethiopian flag, made Ethiopia land-locked, looted the entire wealth of the country to starve the nation, imprisoned the vast population of the citizens to instill fear and hang onto power, terrorized and divided the nation who once lived with harmony for centuries, beaten and murdered opponents including elders and innocent children, auctioned part of our sovereign territories are thugs, crooks, conmen, dictators, traitors and dark forced of evil. Evil is not some biblical hocus pocus nonsense person. Evil is a hardened malicious tyrant who is ethically bankrupt with no sense of decency at all. Evil is a heinous oppressor who through fear and division causes ruin, injury and pain, in order to secure his or her social, economic and political dominance. Evil is the infamous source of suffering, misfortune and destruction of the public's lives and properties. Evil is not from out of space but here in our midst. Evil is not made in the nonexistent hell or heaven. Evil is made on Earth and in our present cases, and mainly Adwa in Tigray, and some other regions where the likes of cruel Aite Sebbat, Bereket, Addisu and Seyoum are sadly born to harm us all.

Thomas A. Edison once said of such men, "What is objectionable, what is dangerous, about extremists is not that they are extreme, but that they are intolerant". And all those who joined them like EDP, now AEUP, OPDO, ANDM and bloody SEPDF are all called demons in my book. Therefore, there can be no compromise when confronting evil. This is precisely the good reason why from ancient times, the fight between good and evil has always been characterized as battle between the forces of "Light" and the forces of "Darkness". Evil thrives in secrecy and darkness like the TPLF/EPRDF cadres. Confidentiality is what saves criminal evildoers from facing the public and the good rule of law. There is only one effective approach to confront and eradicate Evil that is by shining a big spotlight on them and their action, revealing their true evil characters. Evil obviously is a personality and character we are all very familiar with. Yes, evil is not some biblical hocus pocus mythical figure. But most of what Meles & Co; are doing. All the humankind is just like soft clay at birth, easily shaped into many forms with a variety of good or bad characteristics. Hence the oppressed Ethiopian people and who call ourselves the voices of the voiceless in our country Ethiopia must really begin thinking and implementing preventive measures along with procedures to eradicate evil from our country. As Martin Luther King once said too, "When evil men plot, good men must plan". And when evil men burn and bomb, good men must build and bind. When evil men shout ugly words of hatred, good men must commit themselves to the glories of love.

Therefore, the biggest building blocks of Evil in any given society are: racial, religious prejudices, ignorance, greed, hate, lies, malicious gossip, bigotry, cruelty, elitism, individualism, poverty, lack of unambiguous public education, conducive of social and economic conditions, in which the value of humankind is replaced with commercial profits, where the public is constantly bombarded with divisive messages of fear, hate and violence, ranging from violent sports to fearful violent news and fearful, hateful violent entertainment. To recognize if any given society has been infested and taken over by such evil is not that difficult, just look around what is now taking place in mother Ethiopia alone where 80 million people suffer. Preventing and eradicating evil is actually very easy if we are united. Hence it all begins my fellow Ethiopian brothers and sisters, with a simple self-examination, followed by self-correction and ultimately self-realization. To also become a self-realized person, one needs to take an inventory of his or her past life's experiences, lessons learned and the thoughts of what lies ahead. One must think about them at least once a day. Each time when one is ready to think and write some more, before adding another chapter one should read what has been already recorded. "The evil that men (Woyanes) do lives after them. The good is oft interred with their bones" said William Shakespeare? But two of Meles's dozens of mottos are, "Let them (He Means Ethiopians) hate me, so long as they fear me". And his second motto is "A single death may be is a tragedy, a million deaths are statistics". His third motto is, "Sishom Yalbela, Sishar Yiqochewal". But it was totally different with our previous patriotic Ethiopian leaders and as an example too, Atse Menelik once said, "Ye-Ethiopian Hiliwuna Yasdefere, Wusha Yiwuled while the brave Atse Tewodros remarked saying, "Letelatoch Ejen Kemset, Erasen Megdel Merchalehu". Most of you know the poem about brave Tewodros too, "Marekn Endayilu Sew Yelem Bejachew, Gedeln Endayilum, Motew Agegnuwachew". Unfortunately, nowadays, most men have no balls but only mouths and trousers. "Yiwoledna Enkef Enkefu, Gan Yishekemal Kenedifidifu".

Having said that and coming back to Meles the evil too, no wonder that he blatantly and cruelly refused to apologize for the 2005 cruel massacres in Ethiopia. Those made it look that Woyanes are not to be Ethiopians at all but evil creatures hired by foreign countries to poison and slaughter our nation. Such hate, cruelty and badness against own nation are only a very spoiled goodness. As the wise men say too, "Mankind isn't evil, just uninformed" like those dictators. But there are those who cast aside all restraints like Meles Zenawi and are willingly act as pure evil. There are those who live perpetually restrained and become self-righteous too. There are those who are aware of the evil in their hearts, words, and acts, yet are able to love themselves and others like the rest of us. Funny isn't it? The above practice will help the person to achieve lasting peace and harmony within her or himself and in one's short or long life. One will begin to gradually and wholeheartedly develop a very strong harmonious sense of awareness and will comprehend completely and correctly one's distinctive divine moral fiber. The harmonious sense of awareness will connect one to the source of power and energy responsible for universal life and its continuation. Hence as C.S. Lewis once said, Meles & Co, "It is extreme evil to depart from the company of the living before you die". Self-realized individuals who have discovered and realized their harmonious sense of awareness and peace are those open-minded and optimists. They would gladly make themselves always available to help achieve the triumph of good over evil.

But a very self-realized persons like the bearers named above would never be pessimistic about achieving what needs to be done in the world around them and in their lives. Self-realized people will be following their profound sense of conviction that, evil deeds will only triumph when good people do nothing to stop it. Remember, reform always begins with one-self too? And a good friend who points out mistakes and imperfections and rebukes evil is to be respected as if he reveals a secret of hidden treasure like some of us did to date. Robert F. Kennedy once remarked that, "The evil is not what they say about their cause, but what they say about their opponents". Hence there will one day spring from the brain of science a machine or force so fearful in its potentialities, so absolutely terrifying, that even Meles the little evil man, his brainwashed and hoddam cronies and all stupid cadres, who will dare torture and death in order to inflict torture and death, will be appalled, and so abandon war forever. There are so many ways they can infiltrate - trouble is this society is so scared of its own PC shadow that no one does anything about anything. My only regret is that Meles, his cronies and especially his cadres are not only allowed to continue breathing on our Ethiopians forums and websites but also are allowed to make their false propagandas. I have no idea why we entertain them when they insult us all.

The west is appeasing the Weyanes' evil deeds too, all because they have surrendered Ethiopia's sovereignty to our neighbors and our foreign enemies. The gullible Ethiopians might think they have a country called Ethiopia but the reality speaks different. It is a country that belongs to 1000s of NGOs and foreign forces who are running the country the way they like it. And of course, the few evildoers, that controlled the country's affairs. All the country's wealth is in those few evil hands that are family members of the Mafia type thugs. The Woyanes have no work other than celebrating food donation as if it is their good year harvest while telling us the double growth of Ethiopian economy, and can any one believe it too, when their so-called economists trained in I guess, Eritrea or Albania, predicted saying that Ethiopia would be one of the five countries who would be crowned as efficient and self-sufficient country economically in few years time? Bere Wolde Malet Yemayselechachew Gudoch? I don't know how much insult and shame the Ethiopian people can take anymore but this is what is happening in our beloved country. War is the only means of retaliation that terrorists understand. Sure, there is a lot of blood spilled and many of it is innocents but there will be a hell of a lot more blood spilled if we sit back like idiots and let them move in on us again after the 2010 election when they would be defeated again.

As for the opposition again some of who are a bunch of misogynistic losers, how many political parties can dance on the head of a pin? The answer, it seems, is one. In Ethiopia, some opposition parties are beginning to discover that there simply isn't room for both of them and their rivals on the narrow political platforms they have chosen to contest. Without enough space to shift their feet, they are being pushed over closer to the edge of oblivion by fighting one another all the time. Sad! The recent UDJP members' childish behaviors were a game for a laugh for Ethiopian enemies around Menelik Palace. Their failure to extend their own political options further permits Meles to walk over them. The tragedy of Ethiopian political opposing parties that they were and are still too blinkered to see these dangers. As a result of their weaknesses, we are all got hemmed-up in by a tin pot dictator and a traitor for over eleven years. And if the opposition remained the same in 2009 too, he will finish us off in his next rule that now looked certain unless the major opposition parties solve their internal problems. As a political scientist too, my education and experiences in politics and others made me feel like the judge who was sent to India in the days of the Raj. "I am discovering a lot about India," he wrote to a close friend after spending a year there. After ten years, he wrote, "I find there is a lot to learn about India." Finally, "I have reached the conclusion" he wrote at the end of his professional life there, "that I know nothing at all about India." That is politics, which is why education and experience really counts and that is why those who rule us are incompetent. Therefore, all decent, educated and experienced politicians must join political parties of their choice and work hard to rekindle faith in politics and no matter how alienated people may feel from the major parties. I also urge every leader to keep the bad and the ugly ones out and seek advices from us. Having said that, I noticed fewer people have the qualities to rise to the top in Ethiopian politics.

Many politicians in our country do not have the qualities required to get to the top of politics and lead a multi-cultural society like Ethiopia. I don't think a lot of people would like to have them too. I don't want to sound arrogant about this at all, but there are not many people in politics that I have met and I have thought I couldn't do that. Now, please look what the eight or more major parties recently formed as Medrek have been openly saying and doing against themselves? Would any one believe these people as genuine and experienced leaders who are able to topple Meles, unite and lead us in future? The new grassroots politics need more democracy not more political strongmen. The recent disagreements was like watching a dozen or two grumpy old men in a nursing home having a pillow fight from their wheelchairs. But I have respect for some of them who are politically active regardless of their age, experiences and knowledge. But there is an element of desperation with some weak and religious like political parties that became frustrated and selfish. The new desperate and frustrated Meles is a man who can easily bend any law or party regulations and make any alliance with these Mickey Mouse and so-called opposition parties to stay in power. There is rumor too that some opposition parties like EDP and who knows too AEUP are eager and pressured into joining EPRDF to turn down the heat. Senior intelligence officers and cadres are alleged to have been involved in vetting and supporting opportunist candidates too for these parties to polish their images. While some of them are already working with the regime, it will be easier for them to share the power and leave EDP out than competing in the coming election to loose it all. Hence this leaves us to choose one genuine and strong party, Medrek. Therefore, we must keep an eye on these devious political parties who are pretending and betraying the nation like their predecessors and flirting with our enemies in power. Ene Jillu Hailu or Sheweden Hailu and Lidetu Kihdetu are shameless traitors.

Some of these oppositions are not men committed to democracy hence have no ethics and shame in them. They have neither manifesto, nor actions to do with democracy and nothing to do with a change after this regime collapses. That was the kind of ignorance and total blindness that has put us all in grave dangers for the past thirty-six years during the Derg and now EPRDF. These parties only want to secure power for themselves without having the nation at heart. You don't see them doing good things for the country nor mobilizing the public to fight the enemy which leaves Medrek as the only opposition we are left with. We must also watch devious individual's behaviors and so-called anti-government websites too who work for individuals? All what other oppositions do is ridicule opponents; spread malicious gossips and false propagandas against strong parties and accomplished individuals. Is that really, what we expect from opposition parties? Their jobs and responsibilities as Ethiopians are to stop talking gibberish year after year and promising miracles but to do good things for our cause fast to help the suffering citizens and save their country. Stop talking about unity too but show genuine efforts and take action. How many places the Amaras Oromos, Dehub Hizboch etc have to split into? Just like Meles wanted them to be? Ridiculous! The Amhara people have always claimed to be one of the backbones of Ethiopian unity and history. They have fought TPLF, OPDO and OLF relentlessly for years saying these are enemies of the Ethiopian unity. But where is their unity to save Ethiopia then? I am lost for words really? The people of Ethiopia are united but party leaders are not. Shame! These people are all hypocrites, selfish and are driven by lust for wealth and power. They have no bottle for battle. Their political greed & stance in general leave me ashamed to be an Ethiopian. I am fed up campaigning too?

I also fear that there are some opposition party leaders who have become more interested in who is up, who is down in their parties rather than whether their party or another is ready and able to govern the country. They all want to return the country to some sort of normalcy so that they and their close friends and relatives can have a slice of the big bread in high places, and in the end rob the country to secure their luxurious retirement somewhere in the west. That is all they want hence we must make sure this time that these hoddam hyenas don't get to the power through the front nor the back doors. In such a moment, good oppositions have the chance to show that it recognizes the national interest and will promise to do what it can to serve it. If they do, the EPRDF regime may find it that they need not only fully loaded guns but also miracles to survive after 2010. All opposition leaders in exile and at home must stop accusing each other and agree on joint-manifestos to hammer a common political platform for Ethiopia's future. Their unification and appeals to working together must go far and beyond publishing sarcastic press releases. It is a crucial chance to iron out their differences, with a victory in prospect. That may, I hope, will show of unity that will exert more pressure on Meles Zenawi to resign. They must stop whispering and agree on a vision of a future Ethiopia and establish a Council to follow through their decisions. Their future meetings should also consider a draft document like "the transition to democracy in Ethiopia", drawn by the Major Coalition, intellectuals and other prominent independent figures. A joint communiqué is expected to endorse a democratic future. Will they compromise & sacrifice for Ethiopia?

My fellow Ethiopians, I always write too much and too often because our country is extremely badly run at the moment because of problems at the heart of EPRDF and their total incompetence. We are all crying and our martyr's bloods are crying too. The country is aching for a strong opposition to point out, and Medrek has made a good start under difficult circumstances and clearly stood out ahead among others like EDP & AEUP. Their recent success reaffirmed the party's clear purpose to make a fairer country than it has been in the past three decades. The nettle of their leadership has been tested in these hard times and proved to be superior to other opposition parties. In a fog of bad news, greater clarity of purpose still, will be needed from them in future. The opposition's challenge is now to find a graceful way out of a hole of their own-making and save Ethiopia. "Patriots, something is really rotten in Ethiopia: but hurry, buy one and get one free: Meles said, I am an experienced grave digger, robber and murderer who sells dead bodies to quench my thirst of hate for Ethiopia and prove my insanity. (Sale ends at the end of May 2010). Hence here is a real chance for Medrek to save Ethiopia from such cheap sale, the wrath from gravediggers, con-merchants, habitual and pathological TPLF liars, petty robbers, ruthless and merciless murderers and moreover too, letting them selling our dead bodies as well. More to the point, here is a great and last chance for all of Ethiopia to banish delusion, to vanquish the fear on which Meles Zenawi and his cronies and cadres or modern-day bandas and bastards fully thrives, and link those God-given Ethiopian arms and brains to demand for his resignation and a new beginning. What we need therefore is Bravery, Clarity, Resolve And Unity! Good Luck, Success and God Bless!!

FOR DEMOCRATS & PATRIOTS, I SAY, KNOW THAT THERE IS NO VICTORY WITHOUT UNITY!

FOR CADRES, I SAY, I AM NOT APOLOGIZING FOR MAKING YOU BLEED & SWEAT IN WINTER!

LONG LIVE MOTHER ETHIOPIA!
